

Yesterday I sent a letter signed by 40 of my colleagues to European Union Ambassador John Bruton, asking the EU to cut all communications with Hamas. The United States and the European Union annually certify that Hamas is a sponsor of terrorist attacks against civilians. Over the last 20 years, Hamas sponsored the murders of many American, European and Israeli citizens. EU contact with Hamas risks undermining the Abbas government and runs counter to the values of the Roadmap to Peace. We urge the EU to reconsider.
